TUBE FLOOR EFFECTS

SPECIFICATIONS

INPUT IMPEDANCE	500k Ω
OUTPUT IMPEDANCE	1k Ω
POWER REQUIREMENT	120VAC, 80W
SIZE	183×432×57(mm)
WEIGHT	2.9kg

The PUE5 TUBE offers five premium quality effects: TUBE SCREAMER, TUBE DRIVE, DIGITAL DELAY, CHORUS, and NOISE REDUCTION, all of which can be used simultaneously. The PUE5 TUBE gets its name from a 12AX7 tube in the TUBE DRIVE circuit which produces an incredible range of tube distortion from crunch rhythm to lead overdrive. Additionally, the PUE5 TUBE also utilizes the TUBE SCREAMER, Ibanez famed solid state overdrive.

The five on/off settings are programmable as is the on/off of outboard effects connected to the external jack.

The combination of professional quality sound effects and ease of operation makes the PUE5 TUBE an invaluable tool for today's musician.
