What is CUE?

It is a ball-back guitar body which was created especially for Ibanez Drexel Electric Acoustic Guitar with the following characteristics:

- Contemporary styled deep to shallow angular FRP body.
 - Unlimited resonance through new molded bracing system.
 - Exclusive bolt-on neck for tuning stability and strength.
- In short, Drexel represents the absolute latest in technology and design.

(3-Tone Sunburst)

ED System (Volume, Bass, Middle, Treble and Battery Check) mounted on 8th fret!

Introducing SD20, SD22 and SD24. These models offer the finest grained finished body tops available today. SD20 consists of two linear acoustic with bird's eye maple groove finish and acoustic-electric guitar with hard maple groove finish. SD22 features pearl highlights on a bird's eye maple groove finish or a flame maple groove finish. Our premium model SD24 offers a superb quilted maple groove finish both on top and back. For SD20 or SD22's finish you can choose from an assortment of additional excellent groove finishes...there's a lot of ways to go with Drexel and they're all good. Try Drexel...you'll like it.
