

# Vintage Series

In 1998, Ibanez brought back the venerable Vintage Series, one of the great acoustic values of the late 70's/early 80's. 1999 Vintage models offer even more value with solid spruce tops, Ibanez™ saddle and comfortable necks which make Vintage guitars perfect for live performance and players including the transition from electric to acoustic.

## All Vintage guitars feature:

- Gloss Finishes
- Dreadnought Size
- Chrome Die-Cast Tuners
- Solid Spruce Top
- Mahogany Neck, Body, and Sides
- Ibanez™ Saddles

### VS100CENT

- Cutaway
- Fishman Sonicare P/U
- Ibanez AEQ40 4-Band EQ

Ibanez

VS100NT

VS100BK

### Fishman® Sonicare® Pickup

- Fishman exclusive pickup made of copolymer material infused with a special braided wire cable offers high-fidelity acoustic tone with no dead spots.
- More low end response with less midsrange, designed for live performance.

### Ivarez™ Saddles

Ivarez is much harder than bone so it lasts longer and it responds faster to your playing, hence often much more brilliant high and pronounced lows, with slightly less midrange. These tonal qualities make Ivarez fitted guitars especially suitable for picking and soloing.

### Ibanez AEQ40 4-Band EQ

- Fishman Approved. Designed exclusively to work with Fishman Sonicare pickup and Ibanez acoustic-electric guitars.
- Shaking treble and bass controls with two fixed midrange peak and dip controls have been preset for maximum response.
- Low power circuitry maximizes battery life.
- Battery indicator and top mount battery compartment for easy battery checks and changes.

# PF (EL) Series

UF acoustic-electric's offer the distinguished look, and high quality sound and construction you expect from professional instruments...except PF acoustic-electric's are available at a price the beginner can afford. The all new PF and PC300 models feature the distinctive sharp cutaway previously associated with high-end jazz guitars. And now for 1999 is the first PF Series nylon string, the acoustic-electric PC300NCENT.

## All PF and PC Acoustic-Electric's Feature

- Gloss Finishes
- Chrome Die-Cast Tuners (Except PC300NCENT)
- Spruce tops
- Mahogany Necks, Backs and Sides
- Internal Piezo Transducer
- AEG200 3-Band EQ

- Wood Mosaic Rosette

### PC300NCENT

- Original Design Body
- Sharp Cutaway
- Wood Mosaic Rosette

### PC300CENT

- Mini-Jumbo Body
- Sharp Cutaway
- Wood Mosaic Rosette

### PF300CENT

- Cutaway Dreadnought

### PF500ENT

- Dreadnought

### ABQ30

flame' traditional piezo pickup is enhanced by the AEG200 EQ which offers shelving bass and treble controls with one band of fixed peak and slope midrange for a total of three bands of active EQ.

**Die-Cast Tuners**  
1999 flamer PF guitars feature die-cast tuners.

# PF Series

For over ten years, Ibanez Performance guitars have represented the unchallengeable standard in affordable dreadnought and mini-jumbo acoustic guitars. For 1999, Ibanez expands the wide variety of PF guitars with the new PF300NT featuring an original design body that's close to a dreadnought but with a more rounded shape.

## PF300NT

- Original Design Body
- Wood Mosaic Rosette

### PC5NT

- Mini-Jumbo

### PF5NT

- Dreadnought
- PF5NTL (Left-handed)

### PF5BK

- Black

# GA Series

For the classical performer as well as the beginner student, Ibanez GA nylon string guitars offer Old World craftsmanship combined with New World advanced building techniques. Well within the realm of traditional classical instruments are the GA7 and GA5 models. Far outside the classical tradition is Ibanez' most successful nylon string offering ever, the cutaway acoustic-electric GA6CE.

## GA5

- Chrome Hardware
- Mahogany Back and Sides

## GA7

- Gold Hardware
- Rosewood Back and Sides

## GA6CE

- Gold Hardware
- Mahogany Back and Sides
- Prewar Pickup
- Ibanez A-Band EQ

### All GA Nylon String Guitars Feature:

- High Gloss Finishes
- Classical Tuning Machines
- Spruce Tops
- Mahogany Necks
- Rosewood Fretboards and Bridges
