GRG series

For more than 15 years, RG guitars have set the standard for the hard and heavy rock sound. Since its debut, the RG specifications have evolved with each generation of new guitarists. The GRG has all the features of the RG, but a price tag within reach of almost any player. Its fast neck, responsive pickups and rock-solid double locking tremolos make the GRG the guitar for anyone who's ever dreamed of becoming a next generation pro rock guitarist.

GSA series

Ibanez S guitars have always appealed to a broad spectrum of guitar players, from jazz-fusion virtuosos to shredders to death metal thrashers. Its sleek body shape and wide range of tones makes the GSA one of the most versatile guitars on the market. The GSA guitar has the sophisticated look and playability of our S models, and is now available with a double locking tremolo. No longer will a price tag stand between you and a versatile, ergonomic guitar.

GRX series

For most rock players, having a guitar with only single coil pickups is well, kind of weak. And weak is what you could call most brands of affordable guitars. But with Ibanez, spending fewer bucks doesn't mean sacrificing tone. The Ibanez GRX guitars have the humbuckers that players need for heavy rhythms and soaring leads. To ensure all that great meaty tone is retained, all GRX guitars now feature the FAT-10 tremolo. Plus, you can choose from a wide assortment of cool finishes, so your axe looks as good as it sounds. And with the GRX series, you get the same set-up standards as our most expensive instruments. That's why our GRX guitars proudly display the Ibanez logo – not "by Ibanez" – on the headstock.

GAX70BK

GAX series

The GAX is based on the classic ARTIST guitar line, but make no mistake, there's nothing "classic rock" about it. With a crystal cut body and high output pickups, the ultra-loud GAX was designed for the new generation of heavy players. The GAX produces an assertive cutting edge tone for modern rhythm work, and a lead tone that's powerful without straying into the shed zone.

GSR series

Does a budget beginner's bass have to be boring? It doesn't anymore. GSR basses offer the famous Soundgear sleekness, comfort, tone and playability at a price that will astound you. Not only do GSR Soundgears look and play better than everything else in their price range, every GSR bass gets the same rigorous setup and inspection of their more expensive counterpart.

Std and Std II bridges produce the warm sustain that most bass players covet. Getting the right adjustment couldn't be any easier.
