Ibanez Mono-Tune bridge

A: Intonation adjustment screw  
B: Saddle height adjustment screw (1.5mm hex key wrench)  
C: Tuning knob  
D: Tuning knob cap  
*When tuning, turn only C with your fingers. D is not for tuning.

---

STRING REPLACEMENT

1. Turn the tuning knob(C) counter clockwise until the ball end holder(E) appears.
2. Insert the ball end into the ball end holder(E).
3. Thread the string through the string lock(F) and pull it tightly.
4. Tighten the string locking screw(G) using the hex-wrench included.
5. Turn the tuning knob(C) clockwise to tune the string.

⚠️ Notes

Avoid overtightening tuning knob to prevent damaging the screw.
