

TAMA ROYALSTAR & SWINGSTAR PERCUSSION

DRUM OUTFITS - MARCHING DRUMS - LATIN PERCUSSIONS - Mallet PERCUSSIONS

BILLY COBHAM

TAMA ROYALSTAR 7500CS & 7500 SERIES

On these series a coated wood shell is used. And as a special quality, it is superior in tone, volume and material. Furthermore, its shell is produced with a true circle by the super compressor system, and is not influenced by humidity by the special coating. So, you can take pleasure in powerful sounds. In sharp-cut lugs finished by chrome, spring are not laid on. That is "Tama Original Plan". Accordingly, there are not spring noises at all. And, it is very easy to tune by the big "T" handle as the same as Imperialstar drums. On 7500CS series Sound Master CS Head (Made in U.S.A.) is set in order to cut useless over tone. So, especially

7500CS series are set up for Rock/Drummer. In opposition to 7500CS series, 7500 series are planned for Rock or Jazz sound. And, coated heads are very match for coated wood shell. 7500 series has a feature of powerful and mellow sound.

Floor tom tom legs and bass drum spurs have spikes and rubbers to change them according to the situation on floor. So you can play without slipping of drums. Tama Royalstar snare drum is used seamless metal. Accordingly, you can create sustained sounds because of seamless shell. Triple flanging hoops with 10 pcs of lugs are finished by chrome. The inner flanges of the hoop are set not damage sticks. Also, on the adjustment of snappy snare you can switch over smoothly and easily by Fast Action Switch.

 - 6311 "U" clamp only
 - 6315 Woodblock holder
 - 6320 Combination holder w/"U" clamp
 - 6328 Hoop-mount holder
- Using cymbal holder, the hoop-mount holder allows you to set up hoop-mount cymbal. And using "L" rods, it allows you Bongo or Cowbell holder.

PRACTICE PAD & STAND

Made of special rubber with ply-wood embedded making an integral structure. Provides proper stick rebound. Special insert is embedded in the base for mounting cymbal stand.

- 6336 Practice pad only
- 6337 Practice pad w/stand

ANCHOR, SPURS & LEGS

A bass drum rim clamp anchor with either rubber tip or stage spikes. Provides additional protection against bass drum creep.

6348 Bass drum anchor

Tama bass drum spurs and floor tom tom legs feature the Tama 2-way convertible tip. The rubber tip easily retracts to expose a sharp and gripping anchor tip. Tama bass drum spurs are also slanted forward 15° to virtually eliminate bass drum creep.

- 6580 Bass drum spur, set
- 6575 Floor tom tom legs, set of 3

- 6560 "TAMA" drum key

TOM TOM HOLDERS

It is possible for you to change tom tom holder freely. Because on single, double and triple tom tom holder all the same pipe is used. And on pipe "Key-Lock" clamp is equipped to

adjust and fix the height of the pipe. So, tom tom is always at the right position. Even if you adjust and fix the height only once, it is very steady to set up. And furthermore, this "Key-Lock" clamp is superior in stability. Because, the pipe is fixed the thumb screw on bass drum plate and this "Key-Lock" clamp.

- 6681 Single tom tom holder, complete
- 6682 Double tom tom holder, complete
