TAMA SWINGSTAR OUTFITS

TAMA SWINGSTAR OUTFITS SPECIAL FEATURES

SHELLS

The unique characteristics of Swingstar drum is that they are made from nine-ply of mahogany. Mahogany is a very consistent strength per unit of cross section, resulting in drums of very uniform performance under all conditions. The inside of the shell is finished with "Zole-Coat" a tough durable finish that provides an excellent moisture barrier for consistency of sound year in and year out.

HARDWARES

All stands feature the Tama exclusive Nylon Bushing Clamp for smooth, positive height adjustment and long service. Your stands will stay brand new looking for years.

New 6730 Flex-Flyer drum pedal is based on the old and respected Canope pedal design, the new pedal offers that same quick, sensitive response in an update package.

COLORS

Swingstar outfits are available in Metallic White, Midnight Blue and Metallic Blue.

TAMA ROYALSTAR OUTFITS

TAMA ROYALSTAR OUTFITS SPECIAL FEATURES

SHELLS

Tama Royalstar - the heavyweight standard for wood drums.

Constructed of nine-ply of select mahogany, Tama drums offer a great consistency of tone and drum-to-drum balance. The inside surface of Tama drums is finished with Zola-Gloss, a tough, durable finish that provides an excellent moisture barrier for consistency of sound year in and year out.

Tama Royalstar snare drums feature a seamless metal shell for the best metal snare drum performance. The seamless shell snare drums have a warm and fat sound that won't break up or choke even in the fastest, loudest rolls.

TOM TOM HOLDER

The new Tama Omni-Sphere double tom holder offers you virtually unlimited freedom when it's perfectly interchangeable with previous Tama tom holders and fits all standard Tama bass drum and tom brackets. The unique securing system eliminated the need for four arms when setting up your toms. Adjusted lightly, the Omni-Sphere lets you move the toms easily, but still holds them in place. When you find the right position, just lock things up. Most other universal-type tom holders have parts that protrude into the tom shell. This is not only unsightly, but causes the natural resonance of the shell. All Tama mounting hardware is on outside of the toms, allowing maximum tone.

HARDWARES

Tama Mercury snare stand 6670 is the model of stability with the Tama brake drum (stop) and the middle-in-place rubber tips, these tips give the rim security, but won't pull off and won't damage the drum. Mercury Hi-hat stand 6675 features the new contoured footboard for maximum strength and comfort. The special heavy duty Tama clutch won't slip and won't pull off and won't damage the while you play.

Tama Mercury 6672 cymbal stands now feature the two-way nylon cymbal nut. This nut allows you to mount your cymbals in either a free floating or rigid mount fashion by simply turning the nut upside down.

COLORS

Royalstar outfits are available in Metallic White, Midnight Blue, Metallic Blue, Royal Canary, Platin and Royal Powder.

TAMA FIBRESTAR OUTFITS

TAMA FIBRESTAR OUTFITS SPECIAL FEATURES

SHELLS

Tama FibreStar® for the drummer who needs a louder, brighter and more powerful sound and bulletproof durability. Constructed of hand laid up fiberglass, FibreStar shells a strong beyond comparison. Tama uses on "Black Fibre" fiberglass and a special finishing process that puts a super accurate lath-finished sound edge on the shell. FibreStar drums several times stronger and considerably heavier than wood shells. This translates down to incredible durability and a loud, direct tone, rich in upper harmonics.

HARDWARES

Tama Titan stands are the stands that revolutionized the industry. Titan hardware earned its laurels on the road with some America's hardest playing and hardest touring band. Tama Titan stands use double steel legs in the tripod with a wide, wide 36" span. The large diameter shafts are secured with the Tama exclusive nylon bushing clamp that will not wear or damage the shaft.

COLORS

FibreStar outfits are available in Metallic White, Midnight Blue, Metallic Blue, Royal Canary, Plasma and Royal Pewter.

The standard drum key fits all standard tension rods. Made of solid
die-cast.
6560 Tama Drum Key

With many drummers playing single headed bass drums, the TAMA shell
superstar can perform several functions. It will prevent ovaling of the shell
due to tom rim weight, prevent damage in transit, and keep a pillow or other
muffler in place.

Chrome plated metal shell. Triple flanged hoops. 6 lugs.

7275 5' x 14'

Nine-ply wood shell. Triple flanged hoops. 6 lugs.

Tama metal snare drum 7065 is seamless design shell for perfect roundness and uniform shell thickness. This feature assures that the heads will fit correctly. The Tama One-Touch tone control has brought cheer from drummers everywhere. The exact amount of tone control you desire can be preset and then brought in and out on cue—preset and accurate every time.

TONE CONTROL

This new external muffler is ideal for tom toms and snare drum alike. The precise amount of control can be adjusted and the quick release lever lets you turn the muffler on and off without disturbing the tone setting.

6553 Quick Release External Tone Control

MULTI-HOLDERS

THE TAMA MULTI-CLAMP HARDWARE SYSTEM

Today's drummer is using more and more accessories than his forerunners and more and more drummers are mixing their drum sets for a more balanced group sound.

The Tama Multi-Clamp Hardware System grew from the need to more adequately mount accessories and microphones.

You can now not only custom design your Tama set, but your Tama hardware as well. The Multi-Clamp System is based on the versatile multi-clamp with many, many optional parts for just about any application.

Extra tom toms can be added, extra cymbals placed anywhere around the kit, and complete set of mikes can be mounted to your existing hardware without purchasing new stands.

The result is an efficient, good looking and professional set-up wherever you play.
