BILLY COBHAM
Tama Swingstar Outfits

Special Features

Shells
The unique characteristics of Swingstar drums are that they are made from nine-ply mahogany. Mahogany is a very consistent strength per unit of cross section, resulting in a drum of very uniform performance under all conditions. The inside of the shell is finished with "Zolair-Coat" a tough durable finish that provides an excellent moisture barrier for consistency of sound year in and year out.

Hardware
All stands feature the Tama exclusive Nylon Bushing Clamp for smooth, positive height adjustment and long service. Your stands will stay brand new looking for years.

New 6730 Flexi-Flyer drum pedal is based on the old and respected Orange pedal design, the new pedal offers that same quick, sensitive response in an update package.

Colors
Swingstar outfits are available in Metallic White, Midnight Blue and Metallic Blue.

**HARDWARES**

Tama Mercury snare stand 8720 is the model of stability with the Tama bass drum stands and the molded-in-place rubber tips, these tips grip the rim securely, but won't cut off and won't damage the drum.

Mercury Hi-Hat stand 8752 features the three contoured feetboard for maximum strength and comfort.

The special heavy duty Tama clutch won't slip and won't let your symbols loosen while you play.

Tama Mercury 8772 cymbal stands feature the two-way motion cymbal nut.

Not only does it allow you to mount your symbols in either a free-floating or rigid mount fashion by simply turning the nut upside down.

**COLORS**

Royalstar outfits are available in Metallic White, Midnight Blue, Metallic Blue, Royal Canary, Platinia and Royal Powder.

SHELLS
Tama Fibrestar - for the drummer who needs a louder, brighter and more powerful sound and bulletproof durability. Constructed of hand laid up fiberglass. Fibrestar shells a strong beyond comparison. Tama uses on "Black Fibre" fiberglass and a special finishing process that puts a super accurate lathe-finished sound edge on the shell. Fibrestar drums several times stronger and considerably heavier than wood shells. This translates down to incredible durability and a loud, direct tone, rich in upper harmonics.

HARDWARES
Tama Titan stands are the stands that revolutionized the industry. Titan hardware earned its laurels on the road with some America's hardest playing and hardest touring band. Tama Titan stands use double steel legs in the tripod with a wide, wide 36" span. The large diameter shaft are secured with the Tama exclusive nylon bushing clamp that will not mar or damage the shaft.

COLORS
Fibrestar outfits are available in Metallic White, Midnight Blue, Metallic Blue, Royal Canary, Platina and Royal Pewter.

SNARE DRUMS

ROYAL STAR
7065  5 x 14  Seamless metal shell. Triple flanged hoops. One-touch tone control.
7565  5 x 14  Nine-ply wood shell. Triple flanged hoops. One-touch tone control.

SWINGSTAR
6075  5 x 14  Chrome plated metal shell. Triple flanged hoops. 8 lugs.
7275  5 x 14  Nine-ply wood shell. Triple flanged hoops. 6 lugs.

Tama metal snare drum 7065 is seamless design shell for perfect roundness and uniform shell thickness. This feature assures that the heads will fit correctly. The Tama One-Touch tone control has brought cheer from drummers everywhere. The exact amount of tone control you desire can be preset and then brought in and out on cue-precise and accurate every time.

TONE CONTROL

This new external muffler is ideal for tom toms and snare drum alike. The precise amount of control can be adjusted and the quick release lever lets you turn the muffler on and off without disturbing the tone setting.
6553  Quick Release External Tone Control

MULTI-HOLDERS

THE TAMA MULTI-CLAMP HARDWARE SYSTEM

Today’s drummer is using more and more accessories than his forerunners and more and more drummers are mixing their drum sets for a more balanced group sound. The Tama Multi-Clamp Hardware System grew from the need to more adequately mount accessories and microphones. You can now not only custom design your Tama set, but your Tama hardware as well. The Multi-Clamp System is based on the versatile multi-clamp with many, many optional parts for just about any application. Extra tom toms can be added, extra cymbals placed anywhere around the kit, and complete set of mikes can be mounted to your existing hardware without purchasing new stands. The result is an efficient, good looking and professional set-up wherever you play.
