OMNI-SPHERE TOM TOM HOLDER

6872A

Omni-Sphere tom tom holder offers you virtually unlimited freedom of set-up. It's perfectly interchangeable with any Tama tom tom or concert tom. The heart of the Omni-Sphere is a hardened nylon ball joint that goes just where you want it.

SNARE DRUMS

Choice of two different shells.
Both are high quality SEAMLESS chrome metal shells.

6876 6 1/2" X 14"

6875 5 1/2" X 14"

OPTIONAL: Wood Shell Snare Drum
7806 6 1/2" X 14"

HARDWARE

6725
CHAIN-DRIVE
PEDAL

The Tama chain-drive pedal has the smoothest action of any pedal ever made, largely because constant tension is always applied to the teeth.

Cymbals not included

TAMA OAK STICKS

Unlike many drumsticks, Tama sticks are made from cured and seasoned oak. Oak is a very hard wood with excellent grain consistency from piece to piece. When properly cured, oak is very stable and will resist warping to a great degree. When applied to drumsticks, these properties are most important. First of all, a hard stick will be durable. Oak sticks resist chipping and cracking better than any others. Also, a hard stick will be very lively, with excellent rebound from both drums and cymbals.

Model No.	Length	Diameter
2B & 2BN	16" (40.6cm)	5/16" (5.1mm)
5B & 5BN	16" (40.6cm)	9/32" (7.0mm)
Rock SA & Rock SAN	16 1/2" (41.2cm)	9/32" (7.4mm)
SA & SAN	16" (40.6cm)	17/25" (7mm)
TA & TAN	15 5/8" (39.0cm)	17/25" (7mm)
