

CABLE HAT & CAMCO TWIN PEDAL

CABLE HAT 8895

Here is the latest step ahead in hi-hat pedal. No.8895, cable hat extends the style of hi-hat playing by its versatility in setting position. Hi-hat part can be mounted on any stand with TAMA multi clamp and controlled by remote foot pedal through cable connection. This system provides the possibility to select any desired position and angle for main/sub hi-hat use. Especially if using it in POWER TOWER SYSTEM drum rack, it makes the drum kit totally advanced setting style.

CAMCO TWIN PEDAL 6935

Since we started No.6945, Pro-beat twin, we are getting good reputation and we believe that double bass drum pedal has been established in the market. This time, we introduce a good variation of Pro-beat twin. No. 6935, Camco twin pedal!! Famous Camco's smooth pedal feeling by wheel gear action is now available in double bass drum pedal. (The basic function is same as No.6945.)
