6884N	Cymbal stands -2pcs.
6323	Hi-hat attachment

1 SPUR & SPUR BRACKET

Tama's heavy duty die-cast spur system is strong enough to withstand the most punishing pedal pounding. Tama spurs mount externally for uncompromised sound and easy breakdown and storage.

2 SHELL & EDGE

The screaming sound of upgraded TAMA ROCKSTAR series comes from its 9 ply shell of staggered seam construction and flawless bearing edges. 8 plies of Japanese select wood are finished with one inner ply of basswood.

ROCKSTAR

3 SOLID HI-TENSION LUG

Newly designed "solid one-piece" lug with a patented precision fit insert ensures solid tuning stability. Casing length are matched to drum shell depths. Tama's 12" & 13" toms have extra one inch depth, producing additional volume and punch.

BANG

4 OMNI-SPHERE NEW TOM HOLDER MTH100

Cool designed, simple and straight-forward to set-up. Tom position is memory-locked. Needless to say, there is no shell penetration hardware. It's TAMA's rule.

5 6885N HI-HAT STAND

5-Lever Quick-Spring Tension Adjust System is built-in.

6 6730 DRUM PEDAL

That famous "Flexi-Flyer" drum pedal, Simon Phillips counts on!!

7 RS106 SNARE DRUM

6 1/2" x 14" steel shell snare drum. TAMA Sure-Tune lug with a patented precision fit insert which prohibits tension rod movement. Upright strainer mechanism is designed to keep tension even when the snappy snare is tuned loose.
