### PREMIUM MAPLE SHELL

Canadian hard rock maple not only has the desired musical characteristic of a warm sound but is also a wood of great strength that resists warping or breaking.

### AW526 MAPLE SNARE DRUM

The AW526's premium maple, 7mm shell makes it the perfect snare drum to complement the response and clarity of Artstar II premium maple drums.

### MTH300 DOUBLE TOM HOLDER

By combining a heavy-duty L-rod with our nylon Omniball, completely flexible tom positioning and full drum shell vibration is achieved.

### PREMIUM BIRCH SHELL

Japanese birch produces a hard, quick attack with a tight low end response.

### PM206 STEEL SNARE DRUM

The PM206 features a 1.1mm steel shell that has been meticulously crafted and engineered for perfect roundness. With its strong attack and full sound, it is an excellent match for the power of Granstar II's birch drums.

COLOR : PWH(PIANO WHITE)

## ARTSTAR II

The uniform roundness of Artstar II's 9ply, 7mm toms and its 9ply, 9mm bass drum is ensured by Tama's cross laminating manufacturing process. Less wood touching the drum head(7:3ratio sound edge bevel), combined with Artstar II's extra thin shell, creates an incredibly sensitive and responsive drum.
