TAMA

ROCKSTAR-PRO

Rockstar-Pro series transparent finishes rival finishes found on other manufacturers' kits costing nearly twice as much. Seven finishes are available including our newest color, Deep Mahogany. Rockstar-Pro's exceptional tone is enhanced by the use of an acoustic insulators which also act as safeguards against damage from shell-mounted hardware. All Rockstar-Pro sets now come standard with Evans' new cleaner sounding, extra durable G2 heads. G2 was specifically chosen to compliment Tama sound edge and provide maximum tone and easier tuning.

COLORED SEE-THROUGH REDS

ACOUSTIC INSULATOR

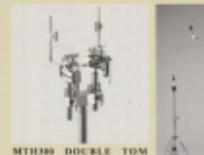

The acoustic insulator system reduces the loss of sound vibration and protect the finish by separating the metal parts from the wood surface. Other features include 18-lug bass drum and matching finished wood base drum heads.

18 LUGS & MATCHING FINISH WOOD HEAD

COLOR: SBR (SEE-THROUGH RED)

MTH300 DOUBLE TOM HOLDER

MTH300 can provide any possible tom angle. Features include height lock adjustment and lever height adjustment for distance to the toms.

Rockstar-Pro sets come standard with Tama's innovative STYLUS cylindrical stands and LEVER GLIDE hi-hat stands.

AW256 HI-HAT SNAKE DRUM

Rockstar-Pro drum sets now feature AW256, painted in the new finish. Transparent Hi-Hat/THM stands are shown for a fast attack and an excellent clarity.

ROCKSTAR-RM

Alternative, Blues, Jazz, Country...the variety of popular music styles that have emerged over the last year is staggering. One thing common to this diverse range of styles is the re-emergence of interest in smaller, standard sized drums in natural finishes.

Introducing Rockstar-RM. Rockstar-RM incorporates single lug simplicity with our unique new bird's eye maple gravure finish for a bolder, more elemental look. The quality of this replication is so close that it would be difficult to tell the difference between an RM shell and that of a drum costing three times as much--even after close examination! Rockstar-RM drums come standard with Evans G2 heads for maximum resonance, attack and tone.

RS105

RS105 snare drum (RS105, RM105)

Two different snare drums are available in RM series, RS105 is a steel shell and RM105 is a wood finished wood shell. Both of them are 5" x 14", which is a much preferred size for most styles of playing.

COLOR: GCV (GRAVURE CHERRY WINE)

Traditional jazz drumming utilizes the bass drum as an extension of floor tom. Because of that, a lot of known players have been using 18" bass drum without ruffling. Together with gravure finish, RM18RJ can give you a "jazzy" feeling, with an advantage in transportation.

ROCKSTAR-DX

Rockstar-DX was created for the drummer who demands professional quality and good looks without the typical short cuts found in other drum sets in this price range. Rockstar-DX shells are made following the same construction techniques used to craft both Granstar II and Aristar II shells. Shell interiors are finished with a basswood inner ply for enhanced projection and cleaner appearance. DX series drums are covered in the same attractive, protective laminate finishes used on Granstar II touring series so you know they'll last. And DX drums offer a wider selection of colors than any other drums in their class!

Rockstar-DX Shells feature 8-ply construction with a basswood inner ply for superior projection. The 1980s design has also retained new Evans G2 snare drum heads. With the G2's double ply like, the result is a more durable head with a more focused sound.

Tama's patented lever system has finally conquered the age old hi-hat problem of how to achieve an easy downward movement and a lightning fast return.

Rockstar-DX drum sets now feature double braced cymbal stands for rock solid stability.

BRASS

Tama brass snare drums are preferred for their ability to produce smooth, bright, powerful tones. The choice of snare is today's leading professionals.

HARDWARE

STAGE MASTER hardware is perfect solution for drummers seeking that famous Tama quality in a light weight hardware kit. And yet surprisingly sturdy, the HC42 and HC43B feature two stage 25 degree and 22.5 mm diameter legs, while the double braced stands HC62 and HC63B feature three stage tubing 25 degree, 22.5, and 30.3mm diameter legs.

TOM HOLDERS

SA30+6 SINGLE TOM HOLDER W/CLAMP
SA30+60 SINGLE TOM HOLDER W/CLAMP
SA30+6S SINGLE TOM HOLDER(SHORT) W/CLAMP
SA30+6G SINGLE TOM HOLDER(GONG) W/CLAMP

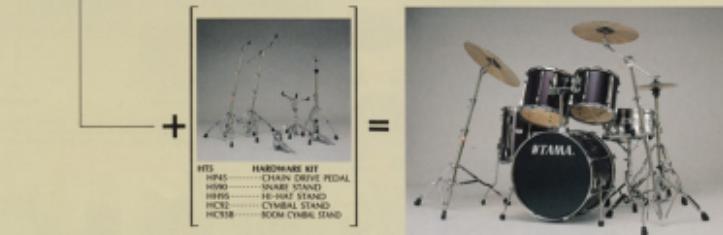

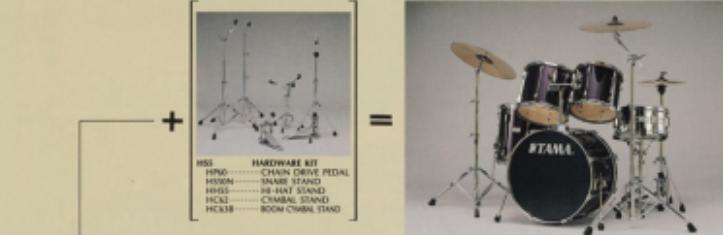

The HT90 provides solid, heavy duty support with a spiral adjustable thick cushion seat. The HT85 features a firm, contoured bicycle style seat for maximum playing comfort hour after hour. Simple and sturdy, the HT65 is the perfect throne for the drummer who prefers a lower sitting position.

Light weight with an extra stability and durability.

CHOICES OF THE HARDWARE

All the Tama's basic 5 piece sets are composed of the shell kit with its standard hardware kit. (Except RK series.) But for your style and occasion, you can have three choices of different hardware kits. HT5(TITAN), HM5(MERCURY) and HS5(STAGE MASTER)

POWERTOWER SYSTEMS

By using flat, rectangular-shaped supports for the base, the PMD800SS has more stability and utilizes less floor space than the traditional racks. Cymbal holders are connected directly to the vertical pipes with die-cast fittings, eliminating the horizontal bar clamps and making cymbal positioning much easier. The PMD800SS accommodates a 5-piece set, including two cymbals and two mounted toms. With the addition of the PMD800SS rack extension, three toms and cymbals can be added.

Stainless Steel Pipes (Straight)

PPB100S	62.5mm/30 inches
PPB105S	62.5mm/30 inches
PPR100S	1,000mm/40 inches
PPR105S	1,000mm/40 inches
PPR110S	1,000mm/40 inches
w/15.1mm Die-Cast Joint	
5542-580	Silvery/black
	Square pipe

Stainless Steel Pipes (Arched)

PPB210S	62.5mm/25 inches
PPR210S	1,000mm/40 inches

Diameter: 38.1 mm/1.5 inches
Thickness: 1.2mm
Mounting your snare drums directly on your rack affords you more room and ultimately improves your sound. A must for double bass players.
