# 1st CHAIR DRUM THRONE SYSTEMS

What's the most important part of your kit? Your hi-hat? Your bass drum pedal? Your rock turner? No, the most important part of your kit is YOU. Your comfort and your ability to move your body are of first importance to your stamina, your flexibility and ultimately your creativity. Maybe your throne should actually be the first thing you consider when purchasing your new kit. That's why you need one of Tama's huge new assortment of 1st Chair thrones. These are seats designed for the first chair level of players who insist on the best so they can play their best.

## Height Adjustment

(U.S. PAT. NO. 5712425)

1st Chair thrones offer the best of both worlds: an exact height adjustment of the threaded rod thrones with the fast adjustment of 1-bolted systems.

1. Loosen the bolt (B) and raise the threaded rod to the approximate desired height; it's not necessary to get the exact height at this point.
2. Screw the height lock (A) down to the top of the nylon bushing.
3. If a minor adjustment is necessary, simply turn the height lock or rotate the seat.
4. Tighten the bolt firmly.

## Leg Styles

### \*Quarter\* (4-leg) Models

1st Chair's new Quarter 4-leg base provides rock solid stability no matter how hard you rock your body. The Quarter base comes standard with the HT460 Round Rider, HT440 Sumo Seat and the HT741 Ergo-Rider Backrest throne.

### \*Trio\* (3-leg) Models

For players who prefer a traditional tripod base, 1st Chair's new Trio 3-leg base is 32mm wider in diameter than the original for even greater stability. In addition, a lower base is also available with the HT730S Ergo-Rider Low. All the new throne bases are available individually so almost every player can add the advantages of these new designs to their existing thrones.

## ERGO-RIDER

The newly designed Ergo-Rider seat provides ergonomic comfort and support. A hybrid of round seat and saddle seat, the Ergo-Rider combines the versatility of the former and playability of the latter. A new front cutaway allows completely unimpeded thigh movement, even during the most rapid double bass patterns. In addition, two gentle wave indentations and an added 20mm upper insert of soft foam encourage the right posture while providing total playing comfort.

The HT730 Ergo-Rider features the standard tripod base; the HT741 has a super stable 4-leg tripod with a backrest, and the HT730S is for players who sit low behind the kit.

*"The Ergo-Rider throne encourages proper posture and provides lumbar support without restriction. A line of furniture should be awarded with this emphatic attention to posture."*  
—Jim Mott, HM CTT Certified Degree in Music and Certified Personal Trainer

Two gentle wave indentations and an added 20mm upper insert of soft foam on the Ergo-Rider seat encourage the right posture while providing complete playing comfort.

**HT730**  
Ergo-Rider Trio  
Adjustable height range:  
480mm-700mm (1' 7" - 2' 3")

**HT741**  
Ergo-Rider Quarter with Backrest  
Adjustable height range:  
510mm-700mm (2' 0" - 2' 3")

**HT730S**  
Ergo-Rider Trio Low  
Adjustable height range:  
420mm-550mm (1' 4" - 1' 8")

## WIDE RIDER

Tama's most popular 1st Chair throne employs a saddle-type seat filled with molded urethane foam that will hold its shape for years to come. 12mm thick plywood at the bottom of the seat provides extra strength and security. The Wide Rider is available with a durable PVC seat (HT530) or the extra large HT460 Sumo Seat which offers enough stability and comfort to satisfy a Japanese sumo wrestler.

**HT530**  
Wide Rider  
Adjustable height range:  
480mm-650mm (1' 7" - 2' 1")

**HT530C**  
Wide Rider Cloth Top  
Adjustable height range:

Adjustable height range:  
480mm-700mm (1' 7" - 2' 3")

## Comparison of Seat Dimensions

## HT460

Revised Quarter  
Adjustable height range:  
480mm-710mm (1' 7" - 2' 3")

## Sit Tight...a Rocklok

(U.S. PAT. NO. 5847262)

No more wobbling! Tama's original "Sit Tight" seat clamp securely grips the throne's upper rod with the same durable aluminum die-cast clamp used in Tama's famous Hi-Hat Clamps. Tama's "Rocklok" features a specially designed nylon bushing at the bottom of the throne's threaded rod that prevents side-to-side motion within the base. Both these special features provide exceptional durability and stability. (The Sit Tight seat clamp fits 1/8" - 1mm to 25.4mm rods.)

## Foot life

(U.S. PAT. NO. 5702405)

It's tough to imagine just how much weight and stress is on the rubber feet of your stand — until you see how often you need to keep replacing them. Not so with Foot life. An innovative plastic leg attachment, Foot life eliminates the wear and tear of metal to metal contact for longer Foot life.

## Swivel Sleeve

(U.S. PAT. NO. 6000450)

**SSL22**  
Standard on all 1st Chair Thrones, the SSL22 Swivel Sleeve features a nylon bushing that allows the seat to rotate even while securely fixed to the threaded rod. Pivot till your heart's content!

## ROUND RIDER

Because of their versatility, traditional round seats are still in demand. Tama's own Round Rider seat features a 40mm thick, 13" diameter round seat. 1st Chair's famous base section offers both fast adjustments and great stability. The HT430 model features the Trio tripod. The new HT440 Quarter 4-leg version is also perfect for keyboardists.

**HT430**  
Round Rider Trio  
Adjustable height range:  
480mm-650mm (1' 7" - 2' 1")

## BACKREST ATTACHMENT

### HTB5

Sitting on a throne for a long period of time is tough on your back. You could get a throne with a backrest – but they're a pain to transport because they don't fold up and if you're a player who leans forward, they're no help at all. Unless you get a 1st Chair backrest. The HTB5 can be adjusted up and down AND forward AND it can be detached from the seat when the gig is done. Sick!

### Adjustability

The HTB5 backrest is both height adjustable and tiltable so it gives you the support you need no matter how you sit.

### Portability

Try fitting other backrest thrones into a trap case. But the HTB5 detaches for easy transport.

## INDIVIDUAL THRONE SEATS

- HTS4N Round Rider
- HTS5 Sumo Seat
- HTS5S Wide Rider
- HTS5C Wide Rider Cloth Top
- HTS7 Ergo Rider

Now you can improve your existing throne with the firm support and comfort of 1st Chair seats.

(Fits 19.1mm - 25.4mm diameter pipes)

## INDIVIDUAL THRONE BASES

- HSB4 Quarrel
- HSB3S Trio Low
- HSB3 Trio

1st Chair throne bases are also available individually so you can have more legs or less legs with your existing seat – or even get closer to the ground with the Trio Low base.

(Diameter of upper rod: 22.2mm)
