Fusion Kit

(color : GMH)

Move the starting point forward. Another break-through in price rules. The Swingstar Custom makes players to enjoy beauty of wood grain without costing a higher-class fare. The shell exterior is finished in transparent lacquer and protected by the coating process utilizing UV. The precise bearing edges provide the easier tuning that beginners need and the wide tuning range that pros demand. On the Swingstar custom, hardware comes with double braced legs increased its stability even greater. The bass drum features O-ring muffer pre-installed heads, which make it much easier to get balanced kick. You can choose from a very basic 5 pieces so-called "Fusion kit" configuration featuring a suspended tom, choice of 20 inch and 22 inch bass drum. And add-on items give you a possibility of low-cost expansion.

Standard Kit

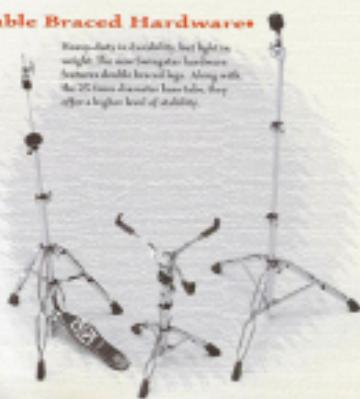

(color : GAM)

- SWP522DN 16"x12" Bass Drum
 SWTP52D 10"x10" Tom Tom
 SWTP52D 12"x12" Tom Tom
 SWP518S 8 1/2"x14" Snare Drum

- MTH500 Tom Holder
 HSC2R Straight-Cymbal Stand
 DPO Drum Pedal
 HH2R Hi-Hat Stand
 HS2R Snare Stand

*Double Braced Hardwares

Stability is availability, but light in weight. The swingstar hardware features double braced legs. Along with the 25 mm diameter base tube, they offer a higher level of stability.

Specifications

Bass Drum Acro-Tone Hoop [www.tama.com](#)
Tama's Acro-Tone hoops have it all. Their hi-tech GTR® material offers both lighter weight, and faster, more stable tuning than traditional metal hoops. Since Acro-Tone hoops use tension bolts instead of clashbolts and T-nuts, head changes and packing up are a breeze. A special groove at the bottom of the hoop offers easy and secure pedal connection, even when the bass drum is angled.

Swivel Foot Hi-Hat Stand

Tama adds yet another professional feature to the entry level price range. With HCH25R's Swivel Foot function, the foot pedal can be rotated around the tripod base which greatly expands set up ease and flexibility. This is a feature you'll need and appreciate should you decide to go the bare bone pedal route.

Gunsphere Tom Holder

With its rock solid stability, Tama's Crossball system has been acclaimed by pro drummers for well over twenty years. With Swigertec's new MTH100 Crossball system double tom holder, you can achieve almost any angle by simply loosening one T-bolt.

HPIO Drum Pedal

Like Tama's best selling Iron Cola Power-Glide pedal, the HPIO features an off-set cam which provides added acceleration and power as the pedal reaches the end of its stroke.

HJC21BR Boom Cymbal Stand

The HJC21BR adds one bonus crucial stand includes all features of HC21R, besides added "Convertible Boom Tilfer" that allows the boom arm to store neatly in the upper tube.

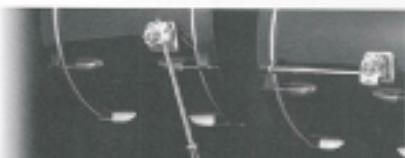

Beater Angle Adjustment

Now just move! Foot-beat pedal with adjustable beater foothold angles in most kits in this price range. But see HPIO.

Spring Tension Adjustment
Inspired by the acclaimed "The Spring Tie" on Tama's high end Iron Cola pedals, this specially shaped nut prevents the spring unit from loosening.

Bass Drum Spur Brackets [GAP.PREFERRED](#)

Our new design features two cast pieces for optimum stability and strength. The spur tips are switchable from spike to rubber; and when it's time to pack up, you can even fold up the spurs without removing them from the bracket.
