# TAMA STAR BUBINGA

MADE IN JAPAN

STAR is the flagship line for TAMA drums. It takes the knowledge and research we cultivated for the Starclassic series to the next level, by reexamining every detail to enhance shell resonance. STAR Bubinga features a much thinner shell than Starclassic Bubinga. In addition, every shell comes equipped with 9mm thick Sound Focus Rings for structural support. This shell configuration provides clear projection and resonance to highlight the distinct sound of Bubinga.

# TAMA STAR WALNUT

MADE IN JAPAN

STAR is the flagship line for TAMA drums. It takes the knowledge and research we cultivated for the Starclassic series to the next level, by reexamining every detail to enhance shell resonance. Walnut has long been favored by furniture makers for both its beauty and durability. As a drum shell material, Walnut's naturally EQ'ed tone has been praised by the drum community for both the stage and the studio. The STAR Walnut shells project booming low end with enough cut to be heard through any mix.

-Exotic Finishes

Our Starclassic Bubinga offerings now include an Exotic Finish line which feature extraordinarily beautiful exotic wood finishes, in addition to the regular lacquer finishes. Their shells are made slightly thicker than those in our Starclassic Maple series to provide a more aggressive attack, a fuller deep and dark tone, and more powerful resonance.

Numerous options are available to meet the varied and critical needs of professional drummers including a selection of more than 30 different shell sizes. Starclassic Bubinga also features three shell hardware finishes to choose from: Black Nickel, Chrome and Smoked Black Nickel. # STARCLASSIC MAPLE

-Exotic Finishes

In the '80s TAMA's Superstars and Imperialstars reigned supreme - the perfect drums for the times. But TAMA's builders and designers wanted something that transcended trends, something timeless - drums that understood a player's passion and allowed the expression of every genre, style, mood, and technique. They created Starclassic Maple drums...and ignited the thin-shell revolution. And now the new Exotic Finish line offers beautiful, one-of-a-kind exotic wood exteriors for that extra luxurious touch.

# STARCLASSIC PERFORMER B/B

-Premium Lacquer Finishes

The distinct and traditional sound of birch has made it the go-to choice for many pro drummers over the last 30 years. TAMA believes it's time to take birch in an entirely new direction. By using bubinga wood as the inner plies of a birch shell, TAMA has created a blended shell that provides a new sound featuring the focused attack of birch, and the enhanced lows of bubinga.

With nearly 40 years of drum building experience, TAMA knows what drummers really want. With this in mind we sought out to design an affordable yet durable kit that retained many high-end features you'll find in our Silverstar, Superstar, and Starclassic lines. What we came up with was Imperialstar. Every aspect of the modern drum kit was exhaustively examined, reexamined, and then improved before it was accepted as part of the Imperialstar design.

# RHYTHM MATE

TAMA's entry-level Rhythm Mate drum kit provides the precise bearing edges for easy tuning that beginners need and the wide tuning range that pros demand. TAMA's original Accu-Tune Bass Drum Hoops offer faster, more consistent tuning than traditional metal hoops. And if that wasn't enough, the hardware is equipped with double-braced legs for increased stability. TAMA Rhythm Mate drums are changing the way entry-level kits are designed.

### MC66

One side can hold pipes with diameters from 15.9mm to 28.6mm, while the other side is a ratchet holder that can hold a rod from 9mm to 12mm in diameter at various angles. An excellent clamp for adding an array of new set-up possibilities.

## UNIVERSAL CLAMP

### MC67

The heavier duty version of the MC66. One side holds pipes with diameters from 15.9mm to 28.6mm, while the other side is a ratchet holder that can hold a 12mm to 25.4mm diameter rod or pipe at various angles.

## MULTI-CLAMP

### MC61

(US.PAT.NO.6096956)
