

# Ibanez Blazer Series

The all-new IBANEZ Blazer series electronics are packed with outstanding features at an affordable price. Blazer bodies are of select ash or mahogany and are available in a variety of attractive finishes. All Blazer necks are one-piece rock maple with an adjustable truss rod. The Blazer is extremely comfortable, well balanced, and solidly built.

Blazer guitars and basses feature heavy polished brass hardware, including a brass bridge and saddles. Each bridge saddle is individually adjustable for height and intonation length. The knobs are knurled brass. All blazer guitars feature a phase reversal switch and the BL 500 and BL 550 feature a coil tap switch.

# Ibanez Blazer Series

Three different pickup configurations are available on the new Blazer guitars. Our famed Super 70 open coil humbuckers pour out a thick, rich tone. Blazer 58 single coil pickups utilize a single blade polepiece for high energy output with a minimum of string pull. Super 6 and Super-tap 6 pickups feature special high-output coil and magnet structures for uncommon power with clarity, fullness and excellent tonal end. Blazer basses feature a special design Super P4 pickup. This high-output bass pickup has reinforced midrange strength for a warm, punchy tone.
