## THE CHOICE IS YOURS

You wouldn't shop for clothes in a store that offered only one shirt in your size, or buy a car from a dealer that had just one car on the lot.... unfortunately, left-handed guitarists have had to settle for the one left-handed guitar out of dozens of right-handed models or wait months for a "Custom Order" they've never seen. Now there's a choice. Ibanez now offers a full line of left-handed models to satisfy the aspiring player up to the professional musician. Stop by your local Ibanez dealer and find the Ibanez left-handed guitar that fits your requirements. The choice is yours.

## SPECIAL BASSES, "NOT SPECIAL ORDER"

"Special Order". These two words usually mean several months of waiting, calling the music store, getting frustrated, hoping that the bass that comes in is what you wanted. Ibanez has taken the fretless and left-handed basses and developed a range of instruments that will suit your needs whether you're a seasoned pro or just starting out. You can choose the feel and features that make it for you without waiting an eternity to get your music going. Ibanez fretless and left-handed basses—Special basses, not special order.
