GUITAR STAND

839

Feature

- Compact design for carrying and storage.
- Height adjustment pipe of supporter to hook extends for maximum 650mm.
- The Nylon Bushing clamp locks shafts securely without marring and gives shafts smooth height adjustment.
- Weight of the base section is 1.5kg (total weight is 2.0kg), for superb balance and stability.
- Pipe of legs are completely inserted into the hard nylon bracket, and the hinge bolts directly go through the bracket and leg pipe and hold the legs completely.
- Special designed natural rubber tip for prevent skidding.
- Base, hook bracket and supporter bracket are made by durable zinc diecast for maximum strength.
- Hook is fixed to the main shaft.
- Loosening the knurl knob, supporter can be taken apart for storage. Position of the supporter can be set firmly by the knob to fit guitar shape.
- Knurl knob is of "loss-free" mechanism.
- Angled 85° main shaft and weight of base unit enhance superb stability.
