Rugged, dependable, Swingstar sets feature nine ply mahogany shells, StageMaster hardware, Black "Eclipse" drum heads and the original Tama Omni-sphere tom tom mounting system. In addition, all Swingstar sets now include a 6884 StageMaster boom stand and your choice of 5" or 6 1/2" chrome metal snare drum as standard equipment. A wide variety of add on toms and accessories are available to expand your set up at any time. Compare quality, compare sound, compare price and you'll see why Tama Swingstar is the obvious "pro choice".

Tama StageMaster series hardware has often been referred to as the "lightweight Titans" because of the many functional design features they incorporate in a simple, lightweight package. Offset cymbal tilting, cymbal mates and nylon bushings are some of the features that make StageMaster hardware the perfect match for Swingstar drums.

Tama's new Tilthat allows virtually unlimited Hi-Hat positioning.

Tama Add-On Drums are available in the following sizes.
