

# TAMA LIMITED EDITION SNARE DRUMS

The AW113SB's shell is crafted of very select birch that Tama has carefully stored and aged for twelve years. This long drying and aging process results in a stable, matured shell with a very low moisture content and makes the AW113SB a snare drum with an unparalleled bright and resonant sound.

AW113SB	
SIZE	3-1/4x14
SHELL	BIRCH 8PLY 9mm THICKNESS
LUG	MPL23 PICCOLO x 10
HOOP	TRIPLE FLANGED MFH14-10B6/ MFH14-10S6
STRAINER/BUTT	MPS20 CAM-LEVER PICCOLO/MCS50B
SNAPPY	6020 STEEL
HEAD	REMO AMBASSADOR COATED/ AMBASSADOR SNARE
FINISH	OIL FINISH(SEE-THROUGH BLACK)

The AW844RW's shell material is rosewood which is used in many musical instruments due to its hardness and stability. The AW844RW's four inch depth offers the fast response and sound penetration found in smaller piccolo snares while still retaining the full sound of deeper, standard sized snares. With its excellent sound versatility, the AW844RW allows for a much larger amount of applications than most piccolo drums. Tama uses die-cast hoops on both batter and snare sides for rimshot emphasis and superior durability.

AW844RW	
SIZE	4x14
SHELL	ROSEWOOD 12PLY 8mm THICKNESS
LUG	MPL23 PICCOLO x 10
HOOP	DIE-CAST MDH14-10B6/MDH14-10S6
STRAINER/BUTT	MPS20 CAM-LEVER PICCOLO/MCS50B
SNAPPY	MS20S-S STEEL SENSITIVE SNARE
HEAD	EVANS GENERA WHITE COATED/ RESONANT GLASS 300
FINISH	NATURAL ROSEWOOD
