Artstar ES

Star-Cast
Mounting System

(PAT. PEND.)

The Star-Cast Mounting System is designed to reproduce the situation of a tom tom held by hand, where neither the vibration is absorbed by the shell mounting hardware and tom holder, nor the weight of the shell reduces resonance. As a result, you can experience the same natural feel and unrestrained vibration of a hand held drum.

Hoop Grip

(PAT. PEND.)

This unique, but simply designed attachment can hold a tom tom with minimal stress on the hoop and no contact on the shell itself.

AE522D
Color : MCH

For 1999, Tama has expanded the Star-Cast advantage to the Artstar ES drums. By Starclassic Maple and Performer Birch series, it has been proved as the most sophisticated tom mounting system existing. And the door for this innovation now opened to a wider number of players with its cost being maintained in the same affordable reach.

Individual Drums

Bass Drum	
AEB22D	16" x 22"
Floor Tom	
AEF14D	14" x 14"
AEF16D	16" x 16"
